

# Website Integration

# There are several options to integrate your box office into your website:

- **Seamless iFrame**

This guide is to explain how to integrate your ticket shop as a Seamless iFrame, like it is a part of it.

- **WordPress Plugin**

If your website is using WordPress, you can easily add entertainrr to it. [Click here](#) for more information.

- **Alternative options**

To find out the alternative options available, visit your entertainrr Dashboard and select Sales > Sales Channels

# You will learn how to...

## Locate iFrame Code

1 Minute

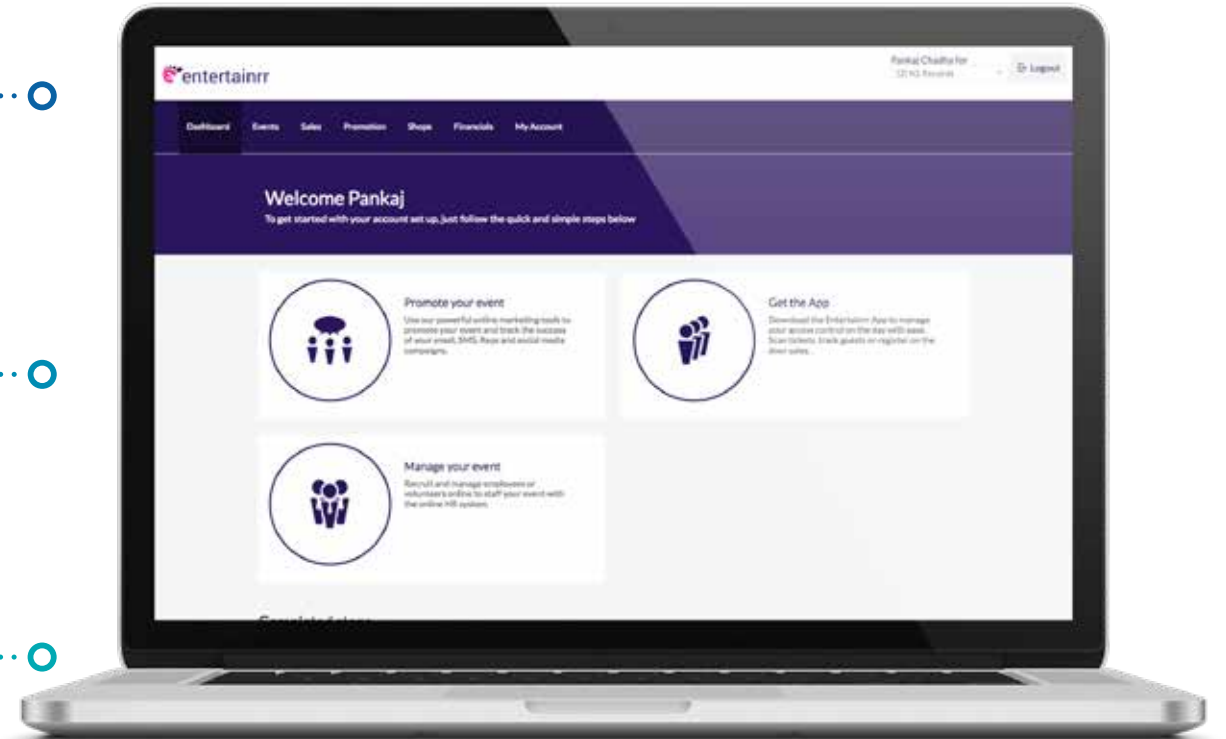

## Insert iFrame into Page

5 Minutes

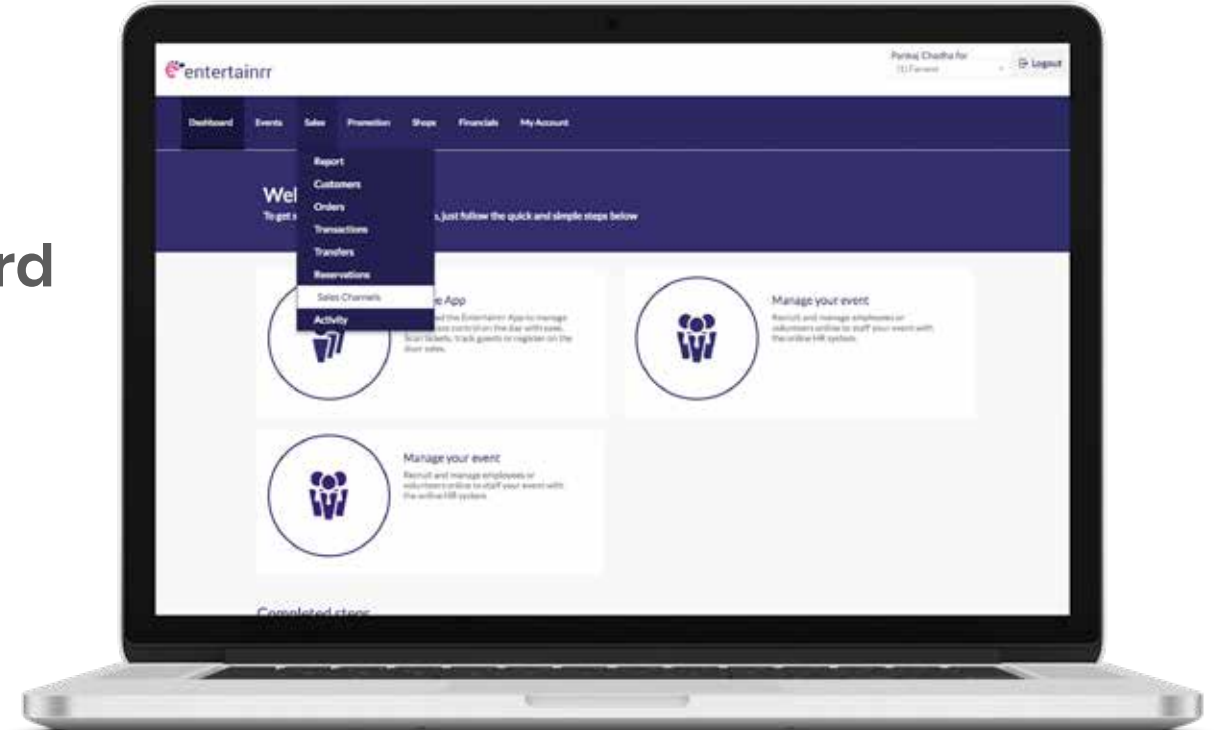

## Check iFrame Installation

5 Minutes

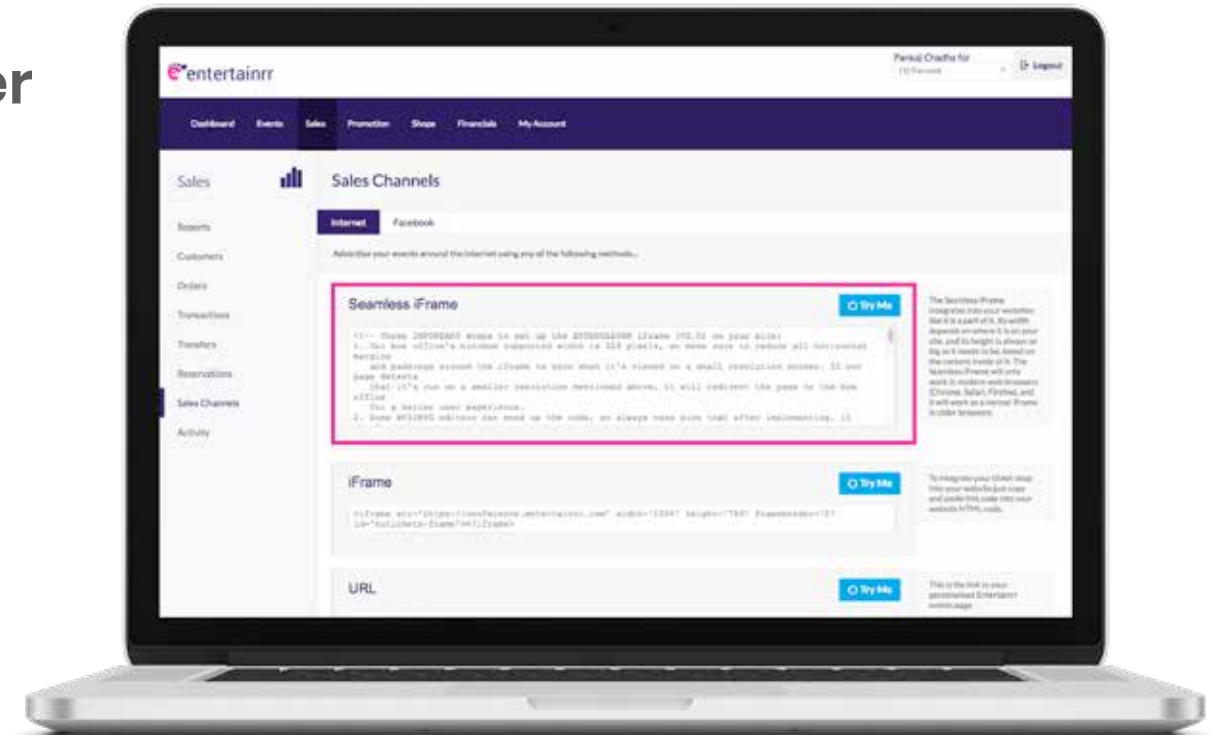

# 1. Locate iFrame Code

- Log in to the entertainrr dashboard via [admin.entertainrr.com](http://admin.entertainrr.com)
- Select **Sales > Sales Channels**

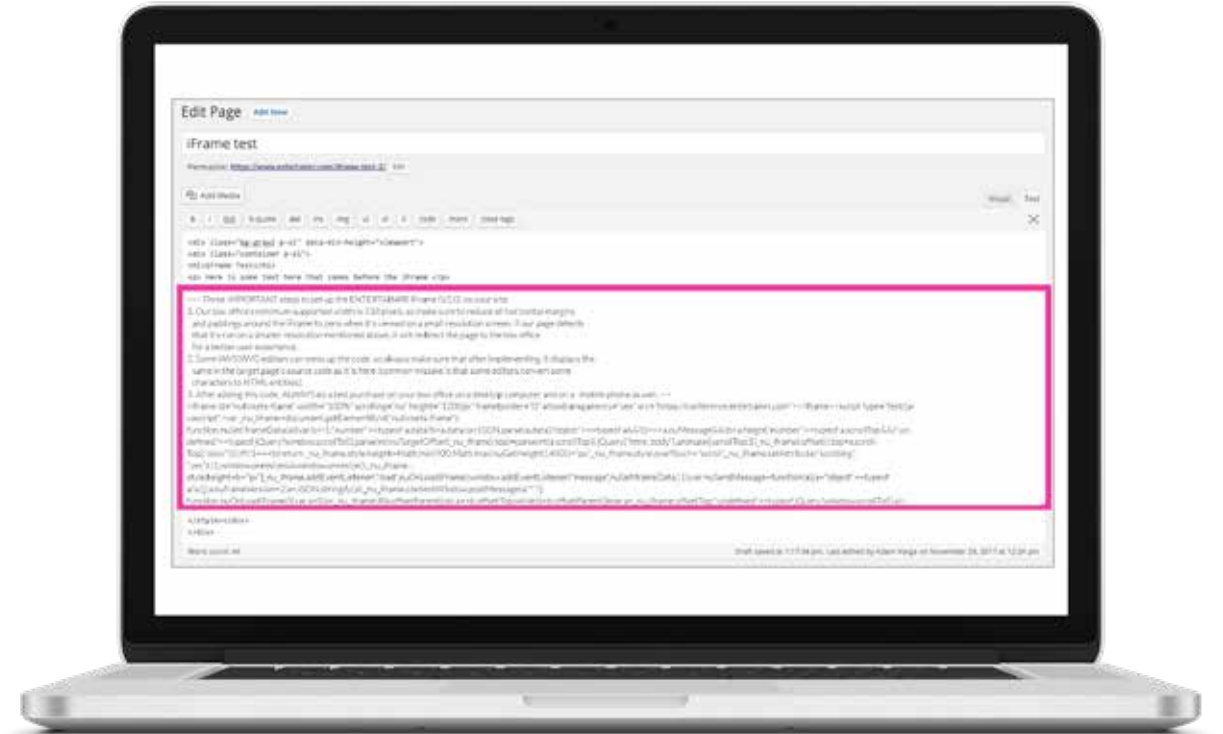

- Your iFrame code is located under the “Seamless iFrame” header
- Read through the **IMPORTANT steps** before proceeding with installation
- After reading the information, click inside the box and **copy the text**

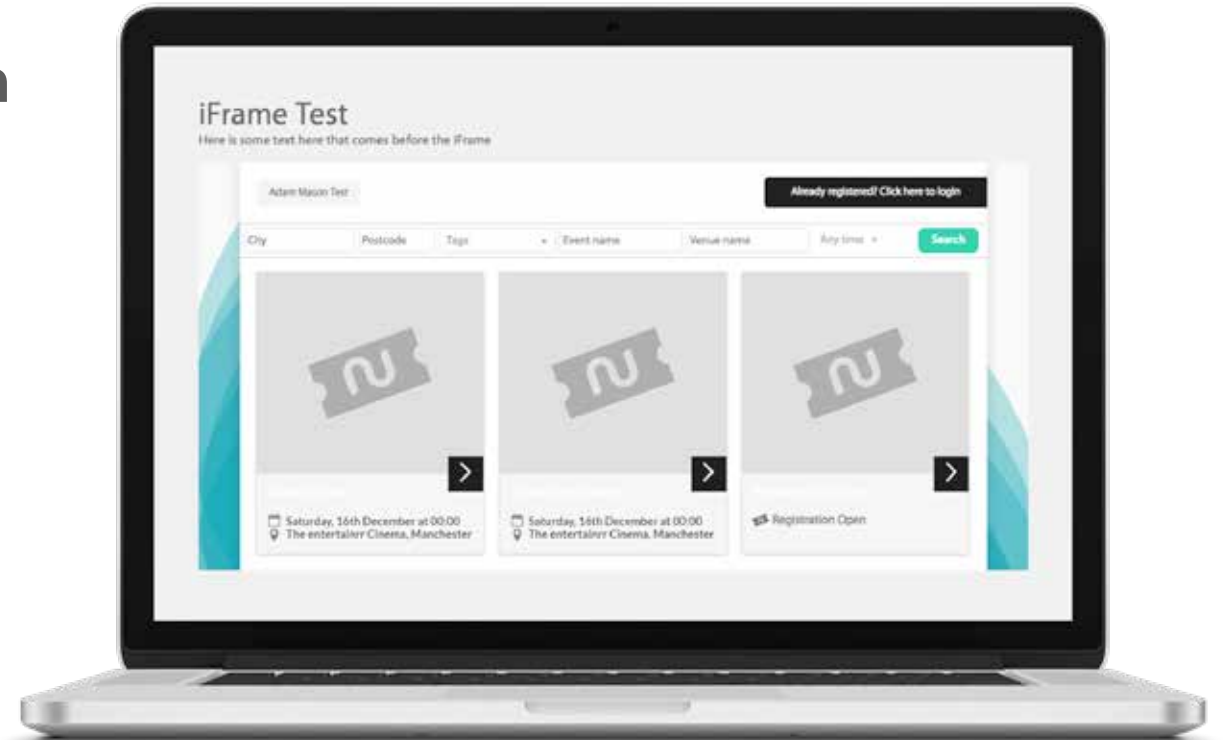

## 2. Insert iFrame into site

- Log into your website's back end
- Open the editor for the page you wish to add your box office to
- Switch your page editor to the code/html editor
- Paste the copied iFrame code at the location you wish for it to appear on the page
- We recommend that you preview your changes before saving

# 3. Check iFrame installation

- When previewing your changes, we recommend that you perform a few test bookings to test the iFrame installation
- When you are happy that all is working well, save your updated page
- If you require assistance setting up your seamless iFrame integration – contact [support@entertainrr.com](mailto:support@entertainrr.com)

# Thank You
